## 1. Academic Record

<u>Degree received</u>	<u>Institution</u>	<u>Date</u>
B.S.	Agricultural Chemistry, Taiwan Chung-Hsing University	1966
M.S.	Food Science, University of Wisconsin	1970
Ph.D.	Food Science, University of Wisconsin	1973

## 2. Professional Experience

1995 - present	Professor, Department of Food Science, Purdue University
1996- 2000	President, Resources Industry, Inc. Lafayette, IN
1983 - 1995	Associate Professor, Department of Food Science, Purdue University
1981 - 1983	Associate Professor, Department of Horticulture, Purdue University
1979 - 1982	Group Leader Laboratory of Renewable Resource Engineering, Purdue University
1974 - 1979	Research Associate Department of Chemical Engineering, Purdue University
1974	Research Associate Department of Chemical Engineering, Iowa State University
1968 - 1973	Graduate Research Assistant Department of Food Science, University of Wisconsin
1967 - 1968	Secretary Committee of Agriculture and Forestry, Taiwan Assembly

## 3. Memberships in Academic, Professional, and Scholarly Societies

American Chemical Society  
American Institute of Chemical Engineering  
Institute of Food Technologists

## 4. Research

The research goal is to develop processes for converting biopolymers to products that can be used for both food and non-food applications. The research work includes corn milling, utilization of cellulose, starch, and chitin, and processing of fruits and vegetables.

**5 Publications:** 60

**6. Patents:** issued 15, pending, 2
